

Bumpers (wood or steel)

1 row of wood (as shown) provides protection of the Car Gate and Car Enclosure Walls.

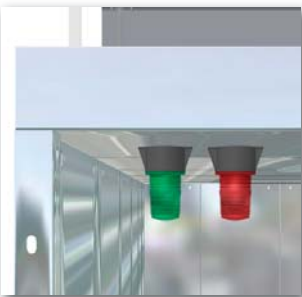

Floor Curb

Provided to keep vehicles from bumping or rubbing against the car enclosure walls.

Exhaust Fan

Provided to keep car enclosure free of harmful vehicle exhaust fumes.

Stop and Go Lights

Stop and Go Lights are sensor activated. When a vehicle comes within range the Stop Light (red) will indicate to the vehicle operator when to stop. When the Landing Doors and Car Gate are in the full open position the Go Light (green) will indicate that it is safe to proceed.
